

MIL-TEK MALTA REFERENCE LIST

WHO IS MIL-TEK?

Mil-tek is the world's largest manufacturer of waste compactors. We have been represented in Malta since 2006.

We cover the whole of Malta from our sales offices/service facilities in San Gwann.

Machines are currently in stock ensuring prompt delivery.

Mil-tek works with a broad range of partners in the recycling industry, giving us the opportunity to offer total solutions and generate revenue on the recyclable materials.

We offer a large and versatile range of compactors. The Mil-tek compactor is suitable for the small corner store, the medium size distribution centre and the large manufacturing plants. We can cater for any sized business with any volume of waste.

Our core products are our worldwide patented pneumatic compactors offering

- A high degree of compacting
- No risk of leaking oil.
- Safe and Easy to use.
- Low energy consumption – less pollution.
- Low maintenance cost.

OUR PHILOSOPHY IS

- Keep it simple - the world is complicated enough as it is
- Provide value for money
- Think globally - act locally
- Compact and recycle - it's good business
- Check your waste bill - it's full of air
- Less is better - less waste, less containers, less transport, less pollution.

All machines are approved according to the CE, GS certificates and Mil-tek Denmark complies with ISO 14001.
